PREVENTION OF COVID-19

- ❑ Made safety masks in factory and distributed in all employees as currently masks stock is short globally.
- ❑ Developed teams from Admin, Safety, HR, Compliance & production departments to monitor & implement rules & regulations designed for the prevention of Coronavirus diseases.
- ❑ Designated team visiting frequently in all departments to monitor working conditions of employees & suggesting corrective & preventive actions where required.
- ❑ Remove carpets from Masjid (Prayer areas) in order to prevent absorption flu & coughing drops to prevent spread and before every prayer floor mopped via disinfectant liquid.
- ❑ Developed 3 shifts in canteen for lunch in order to prevent overcrowdings & tables have arranged in such way that dinning table is away 6 feet from other table.
- ❑ Pasted coronavirus informative poster in all departments to emphasizing the awareness of coronavirus.
- ❑ Removed biometric attendance systems from all points to prevent spread.
- ❑ Refresher awareness sessions are in practice for continual improvements.
- ❑ Have increased frequency of general fumigation & rodent control by external body and internal as well.
